Released: November 6, 2017

MEDIA BUREAU TEMPORARILY LIFTS THE FREEZE ON THE FILING OF MINOR MODIFICATION APPLICATIONS THAT EXPAND THE CONTOUR OF FULL POWER AND CLASS A TELEVISION STATIONS FROM NOVEMBER 28 THROUGH DECEMBER 7, 2017

**MB Docket No. 16-306
GN Docket No. 12-268**

The Media Bureau is temporarily lifting the freeze imposed on April 5, 2013 on the filing and processing of minor modification applications that would increase a full power television station's noise-limited contour or a Class A station's protected contour in one or more directions beyond the station's authorized facilities.¹ The freeze will be lifted on Tuesday, November 28, 2017, and reimposed at 11:59 pm EST on Thursday, December 7, 2017.² Minor modification applications submitted during this time period will be processed on a first come/first served basis, i.e., the filing of an acceptable application "cuts-off" the filing rights of subsequent, conflicting applications.³ In addition, the Media Bureau will process minor modification applications that have been pending since April 5, 2013 which are at variance with the limitations imposed in the *April 2013 Freeze Public Notice*.
